

NexPress™ Connection System

(½" thru 2")

DESCRIPTION, APPLICATIONS & BENEFITS

Description: NexPress™ is a safe, reliable and economical connection system for connecting copper pipes, valves, and hoses using cold-press connection technology.

Applications:

- K, L, and M hard and soft copper tubing.
- All copper tubing to comply with ASTM B88 standards.
- NexPress™ fittings are approved for ABOVE ground applications only.

Approved Applications:

- Hydronic Heating
- Chilled Water (w/ Glycol)

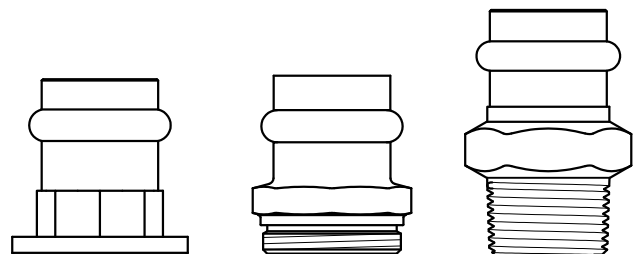

Benefits:

- Fast and easy to use
- Flameless
- Environmentally Friendly

MATERIALS & DESIGN DATA

DZR C35330 Brass
FKM seals
Operating Pressure: 200 PSI max
Test Pressure: 600 PSI
Temperature: 34°F to 250°F water systems
Temperature: 0°F to 250°F water/glycol systems

NexPress™ has been tested to IAPMO PS 117-2006

TAIL PIECES
Model TP

FIXED ENDS
Model FE

ADAPTERS
Model NPA

COMPATIBLE CRIMP TOOL MANUFACTURERS

- Ridgid ProPress
- Stanley Virax
- REMS Power-Press
- Rothenberger Romax Pressliner
